Hazardous Weather

Hazardous Weather

More summer heat and humidity will be expected across deep south Texas today with heat indices or "feels like" temperatures peaking between 105 and 110 degrees. A few isolated showers may be possible today along the inland moving sea breeze boundary this afternoon. For the mariners, expect the development of a moderate chop on the bay and gulf seas of 2 feet or less

Hazardous Weather

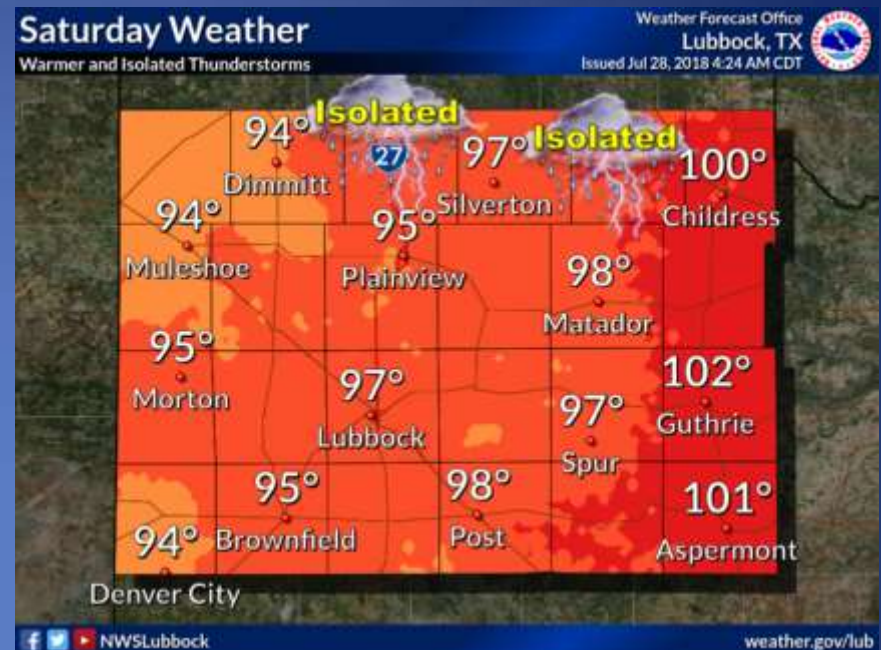

Temperatures

Temperatures will be slightly above normal today and tonight across West Texas and southeast New Mexico. Isolated thunderstorms are possible today across southeast New Mexico, Guadalupe Mountains, northern Permian Basin, and portions of the Big Bend.

Saturday Weather

Warmer and Isolated Thunderstorms

Warmer temperatures for Saturday with isolated thunderstorms in the southern Texas Panhandle
